

## PECB Certified ISO 22000 Foundation

Become acquainted with the best practices of Food Safety Management Systems (FSMS) based on ISO 22000

### Why should you attend?

ISO 22000 Foundation training enables you to learn the basic elements to implement and manage a Food Safety Management System (FSMS) as specified in ISO 22000. During this training course, you will be able to understand the different modules of a FSMS, including FSMS policy, procedures, performance measurements, management commitment, internal audit, management review and continual improvement.

After completing this course, you can sit for the exam and apply for a “PECB Certified ISO 22000 Foundation” credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements, framework and management approach.
