

PECB Certified ISO 27799 Foundation

Become acquainted with the best Information Security Controls of Health Care based on ISO 27799 and ISO/IEC 27002

Why should you attend?

ISO 27799 Foundation training enables you to learn the basic elements of Information security management and Information Security Controls in healthcare organizations as specified in ISO 27799 and ISO/IEC 27002. During this training course, you will be able to understand how ISO 27799 is related to ISO/IEC 27001 and ISO/IEC 27002.

After completing this course, you can sit for the exam and apply for the "PECB Certified ISO 27799 Foundation" credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies and management approach.

Who should attend?

- Individuals interested in Information Security Management applicable to the healthcare industry
- Individuals seeking to gain knowledge about the main processes of an Information Security Management System and Information Security Controls relevant to healthcare organizations
- Individuals interested to pursue a career in Information Security Management

Learning objectives

- Understand the implementation of Information Security Controls in accordance with ISO 27799 and ISO/IEC 27002
- Acknowledge the correlation between ISO ISO/IEC 27001, ISO 27799, ISO/IEC 27002 and other standards and regulatory frameworks
- Understand the approaches, methods and techniques used for the implementation of Information Security Controls in healthcare organizations
